

MAZDA CX-60

MAZDA MAKES YOU FEEL ALIVE.

We believe in the power of human potential; creativity, imagination and the amazing things we're all capable of when we're inspired.

We believe in taking the unconventional road and going the extra mile to do work that inspires.

We believe in artisans, designers, engineers and ambassadors who pour human energy into their work.

We believe in the power of cars to move human emotions. To awaken senses, heighten reflexes, make pulses race.

We believe the joy of being alive comes from what we discover on our journey, and the inspiration we find in every mile.

BORN OUT OF A UNIQUE JAPANESE AESTHETIC

KODO DESIGN. REFINED FOR A NEW ERA.

The Mazda CX-60's Adaptive LED Headlights with Signature Illumination are more than just striking, it is designed to adapt to your drive, they pivot into corners to enhance visibility and reveal the road ahead with confidence, even in the darkest conditions.

The Mazda CX-60's bold front grille commands attention with its sleek, modern design. The contours enhance the SUV's premium aesthetic while optimising airflow, reflecting Mazda's commitment to both elegance and performance.

From its sculpted rear profile to the sleek LED combination taillights, the CX-60's design is purposeful and dynamic.

The all-new Mazda CX-60 is a bold expression of our design philosophy — KODO: Soul of Motion. Every curve, every contour, and every surface reflects a harmony of elegance and strength. Its powerful stance, long hood, and sweeping lines exude both luxury and agility.

METICULOUS JAPANESE CRAFTSMANSHIP

A CABIN THAT REFLECTS YOU.

The panoramic sunroof invites natural light and fresh air into the cabin, creating a sense of openness for every passenger. Whether it's city lights or clear skies, the view from the Mazda CX-60 is always worth taking in.

Stay powered without the clutter. The integrated wireless charging pad keeps your smartphone charged on the go, blending practicality with the clean, elegant design of the centre console.

The latest 12.3" infotainment system offers Apple CarPlay® and Android Auto™, ensuring your calls, music and navigation are always within easy reach without ever needing to plug in.

Step inside a space crafted for both the driver and passengers. Every detail from the dashboard trim to the leather upholstery reflects Japanese artistry and thoughtful design. Enjoy a sense of calm with a minimalist, driver-centric cockpit, intuitive controls, and ambient LED lighting that sets the tone.

Pure White Nappa Leather interior is only available on 3.3G AWD High Plus in Rhodium White.

Tan Nappa Leather interior is only available on 3.3G AWD High Plus in Machine Gray.

BORN OUT OF A UNIQUE JAPANESE AESTHETIC

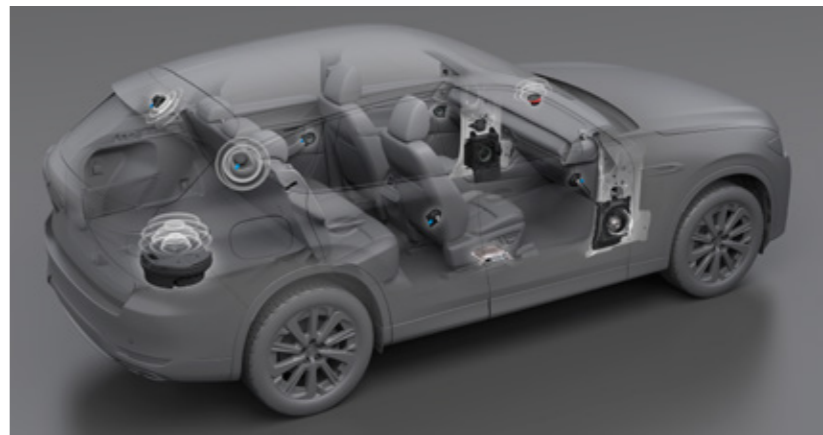

2.5G 2WD High features black leather interior for all exterior colour options.

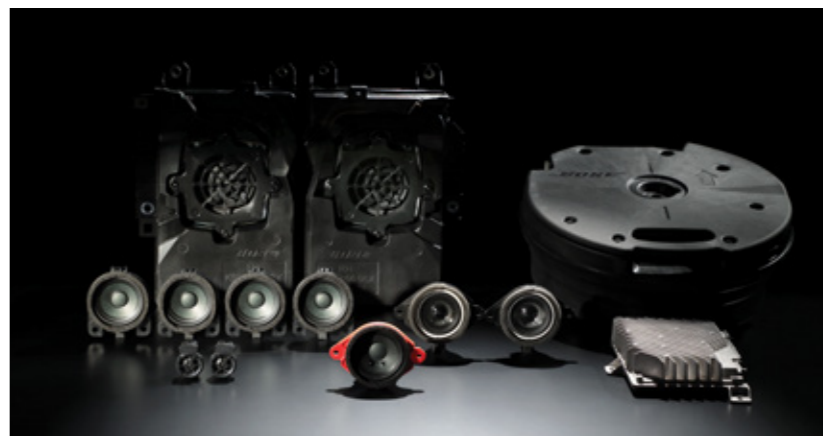

THE SOUND OF SATISFACTION

The Mazda CX-60 delivers a supremely quiet cabin designed to enhance every note of your audio experience. Thanks to a rigid body structure and advanced sound insulation, unwanted noise is kept at bay. At its heart is Mazda Harmonic Acoustics, with large woofer enclosures and an exclusive amplifier system that produce deep, detailed sound. Debuting in the CX-60 is Master Sound Revive Noise Reduction (MSR NR), which minimises low-level noise for cleaner, more immersive audio — just as the artist intended.

Jointly developed with Bose®, the Mazda CX-60's audio system features 12 speakers for powerful, clearly defined sound. The unique Centerpoint surround system delivers a superbly focused, three-dimensional sonic image even from stereo sources, while AUDIOPILOT monitors ambient noise levels and automatically adjusts audio volume.

POISED TO PERFORM

M Hybrid Boost

This 48V mild-hybrid system on the Mazda CX-60 3.3G AWD High Plus provides electric assistance to support the engine during acceleration and low-speed driving. Energy recovered during deceleration is stored in a compact battery and redeployed to enhance overall driving smoothness, support seamless power delivery, and improve fuel efficiency. The system also enables quicker, smoother engine stop-start operation, contributing to quieter and more refined urban driving, especially in stop-and-go traffic.

BALANCE OF POWER.

Mazda e-SKYACTIV G 3.3L — powerful, smooth, and refined. The all-new in-line six-cylinder engine marks a new era of Mazda performance. It delivers 280HP and 450Nm of torque with remarkable efficiency. Its balanced configuration ensures minimal vibration, offering a driving experience that's both exhilarating and effortlessly composed.

The Mazda SKYACTIV-G 2.5L engine delivers an exceptional balance of power and efficiency, combining responsive acceleration with impressive fuel economy. It offers a smooth, refined driving experience while reducing emissions—proving that performance and sustainability can go hand in hand.

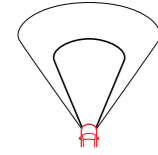

The newly developed 8-speed automatic transmission delivers precise, responsive gear shifts for a more connected driving feel. Designed without a traditional torque converter, it uses a multi-plate clutch to enhance performance, fuel efficiency, and smoothness, all while keeping you in perfect control.

The all-new Mazda CX-60 is built on a next-generation scalable platform with a longitudinal engine layout, designed for pure driving pleasure. It delivers responsive performance while maintaining exceptional balance and comfort. Developed with Mazda's Jinba-ittai philosophy, the CX-60 enhances your connection with the vehicle through a rigid body structure and ergonomically designed seats, placing you in perfect harmony with every drive.

i-ACTIVSENSE*

Adaptive LED Headlights (ALH)

ALH increases visibility at night to help drivers stay vigilant by combining 3 technologies : Glare-free High Beam, Wide-range Low Beams and Highway Mode.

Lane-Keep Assist System (LAS) with Road Keep Assist

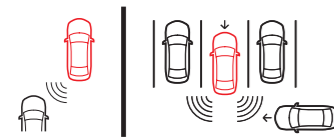

LAS with Road Keep Assist helps the driver maintain proper lane positioning by monitoring road markings with forward-facing cameras. When the system detects unintentional lane departure, it provides gentle steering assistance to help prevent unintentional lane departure. When lane markings are unclear or not visible, Road Keep Assist supports by detecting the road edge and applying steering assistance to help prevent unintentional lane departure.

Smart Brake Support (SBS) Front & Rear

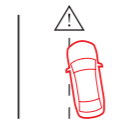

SBS aims to help the driver avoid or reduce the severity of frontal collisions (between 15 - 145 km/h), by automatically applying the brakes if there is a danger of collision.

Blind Spot Monitoring (BSM) Rear Cross Traffic Alert (RCTA)

BSM alert drivers of the presence of vehicles approaching from behind and in the adjacent lane on either side by displaying an icon in the appropriate door mirror. RCTA alerts the driver when it detects vehicles approaching from either side during reversing operations.

Lane Departure Warning System (LDWS)

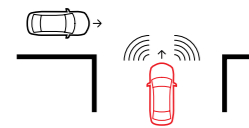

LDWS automatically senses lane markings on the road and alerts the driver when it predicts the vehicle is going to unintentionally depart from its lane.

Mazda Radar Cruise Control (MRCC)

MRCC maintains a set speed and minimum following distance from the car in front. If the car you are following reduces speed, your vehicle will automatically slow down as needed.

Front Cross Traffic Alert (FCTA)

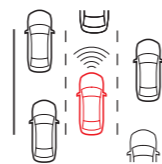

The FCTA detects vehicles approaching from the blind spots on the front left and right sides of the vehicle when the vehicle starts to drive at an intersection.

Driver Attention Alert (DAA) with Driver Monitoring

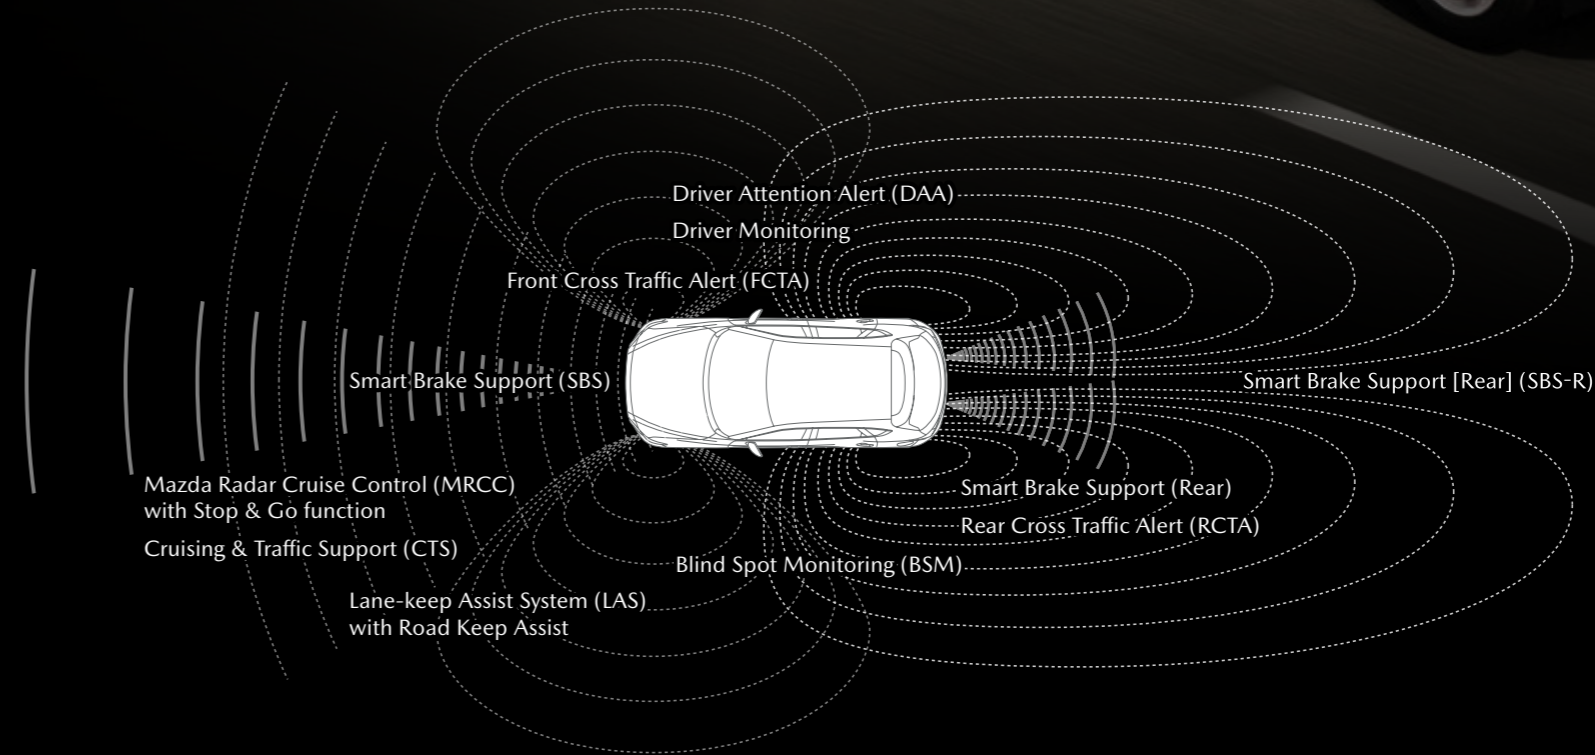

DAA detects driver fatigue and decreased attentiveness and encourages the driver to take a rest (activates above 65 km/h). Driver Monitoring detects changes in the driver's facial features using a camera, and encourages the driver to take a rest (activates above 5 km/h).

Cruising & Traffic Support (CTS)

CTS assists to maintain a constant distance between your vehicle and a vehicle ahead at a preset vehicle speed without you having to use the accelerator or brake pedal. It also assists the driver to keep steer the vehicle within the lane lines.

True driving pleasure comes from confidence behind the wheel. Guided by Mazda's human-centred design, Proactive Safety and i-Activsense technologies work seamlessly to support your awareness, help avoid danger before it arises, and provide assistance when needed — so you always feel safe, secure, and in control.

* Available on selected models only. These systems are not a replacement for safe and attentive driving. Please drive carefully at all times and do not rely on technology to prevent an accident.
